AUM BIOSCIENTIFIC

Smart Solutions for a Healthier Tomorrow

Jainil Patwa

Founder, AUM Bioscientific

ISO
Certified

AI-First
Driven

ECO
Focus

Global
Reach

An emerging provider of laboratory & hospital solutions, revolutionizing healthcare through innovation and artificial intelligence.

What We Bring to the Table

Reagents & Chemicals

High-purity substances for research, diagnostics & industrial applications.

Advanced Instruments

Precision equipment for accurate analysis and testing in demanding settings.

Glassware & Plasticware

Durable, high-quality essentials for every laboratory workflow.

Disposable Items

Sterile, single-use products ensuring safety in medical & research settings.

WHY PARTNER WITH US

Built on Trust & Excellence

Commitment to Quality

ISO, GMP & FDA compliant products meeting international standards.

Strategic Pricing

Competitive rates and bulk discounts for institutions & businesses.

Reliable Supply Chain

Efficient distribution network ensuring prompt, dependable delivery.

Customisation & Consultation

Tailored solutions crafted for your specific research or medical needs.

Predictive Diagnostics

AI-driven analytics enabling early disease detection and smarter clinical decisions.

- Real-time pattern recognition across large datasets
- Flags anomalies before they become critical
- Evidence-based clinical recommendations for doctors

**95%+**

Accuracy

Earlier Detection

Lab Automation

Smart robotic workflows that optimise every step of research and testing.

- End-to-end automation of sample processing pipelines
- Dramatically reduces human error and contamination
- Frees scientists to focus on discovery and innovation

**60%**

**100%**

Traceable

**24/7**

Operation

Sustainable Solutions

Eco-friendly innovations that reduce lab waste and energy consumption.

- Biodegradable and recyclable lab consumables
- Energy-efficient instruments with low carbon output
- Circular design principles across all product lines

**40%**

Less Waste

**30%**

Water Saved
